Re: Pre-school Care Association Basic Educare Teachers Training Course

I had chosen ECD (Early Childhood Development) as my career choice and had therefore been looking for an Educare course that was affordable yet informative to enrol in. I then came across a website offering a Basic Educare Teachers training course compiled and co-ordinated by Lynne Hobbs who herself, is the proprietor of her own Educare: 'Kids & Us Educare and Pre-school', which has been in operation for the last 22 years. I was happy with what I had seen; once I had registered, within a week, I had received my course info and was ready to start!

I was very impressed with the course content, it was well compiled and covered modules from how to run your own Educare effectively to the aims and methods of teaching the pre-school child. I found the course to be hard work yet fun, especially the exciting assignments involved.

I thoroughly enjoyed the course and I most definitely look forward to putting the knowledge attained into action!

Lynne was always on hand when needed and happy to answer any questions I had regarding the course. I thank Lynne for her continuous support and guidance and for offering such an informative course.

Kind regards
